epas

Global insurance firm using EPAS for security and compliance

Firm size: $70B+

" Constructive Flexible Vendor With Stable Solutions "

" Constructive and pragmatic vendor with stable solutions at reasonable conditions. We've worked with them for six years in Europe, US, and Asia and the relationship is excellent "

IT Buyer / Procurement

OVERVIEW
The customer needed to meet a variety of requirements in highly regulated environments in 25+ countries, as well as improve cyber resilience by strengthening authentication.

SOLUTION
The EPAS solution was deployed over the course of approximately four months, covering around 30 data centers and many heterogeneous systems, ranging from Microsoft Active Directory to UNIX, IBM Mainframe, and cloud platforms. EPAS has been running without interruption for the past 9 years, ensuring that passwords are secure and providing regulatory evidence in this respect.

CONCLUSION
"EPAS is stable and secure. Easy to deploy and delivers what it promises. Support is also helpful. Feedback from the technicians is also positive. We will be happy to extend our agreement with them again."
